Information Dominance for Joint Endeavor

C4I--the tie that binds

Common Operational Picture - Advanced C4I Technology -

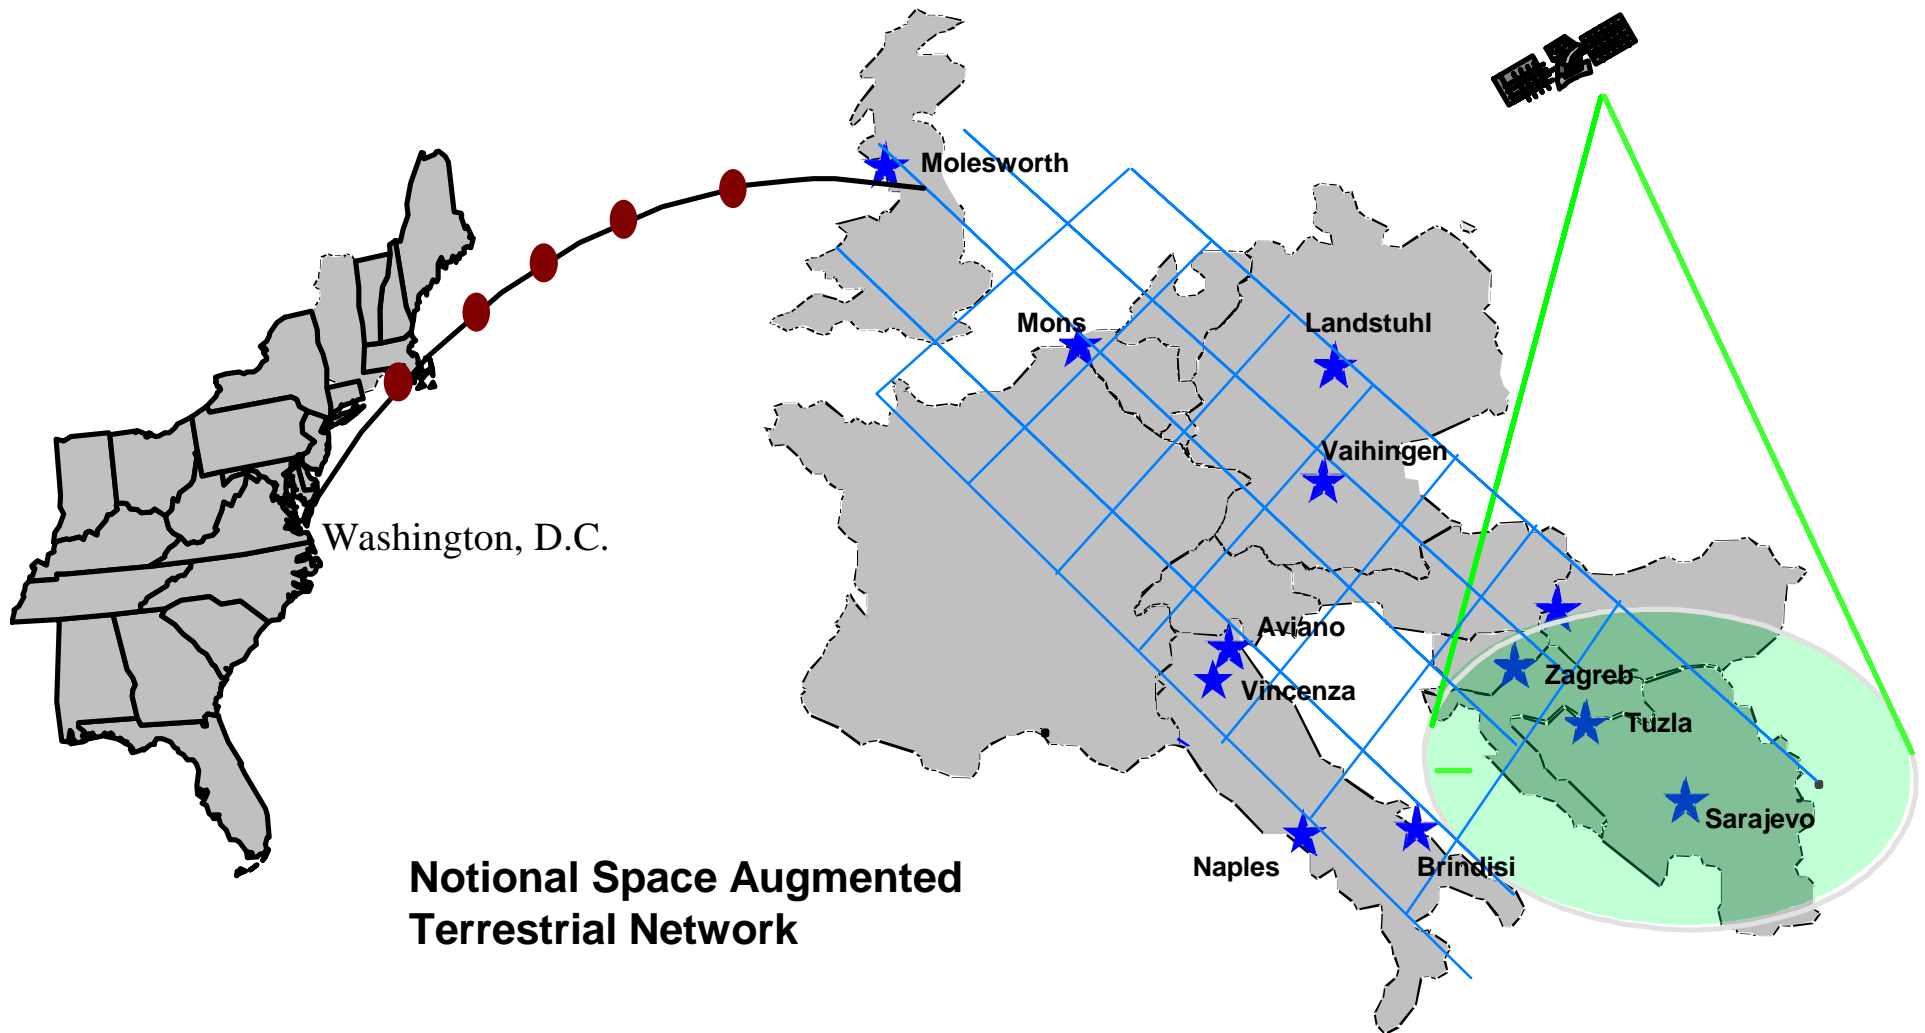

Payoffs

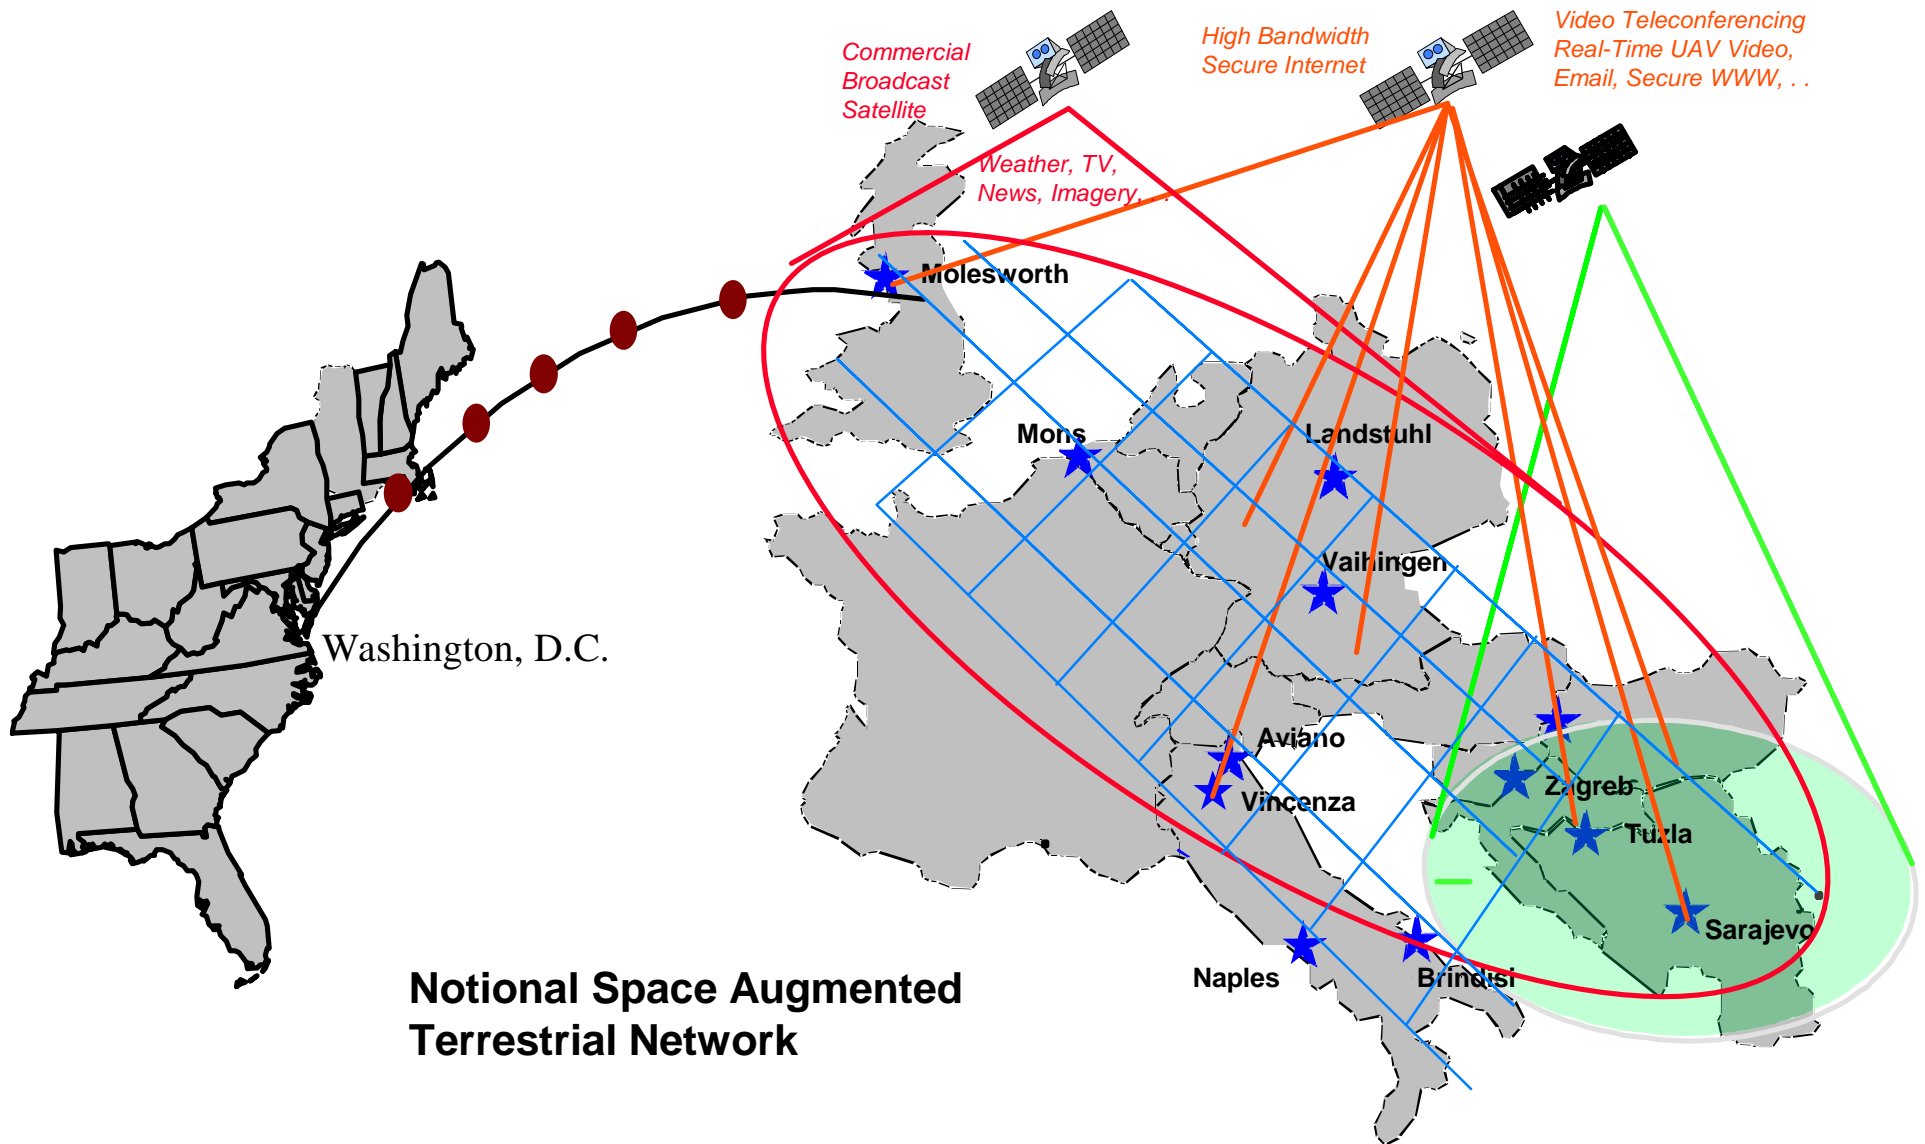

- **For Bosnia**
 - Huge increase in communications capacity and information availability and timeliness
 - Much improved operational “picture” of the battlespace
- **For The Future**
 - Is a “model” for future contingencies
 - Accelerates the insertion of advanced C4I tools and technologies
 - Continues to maximize U.S. advantage in information processing

Existing Communications Support for Joint Endeavor

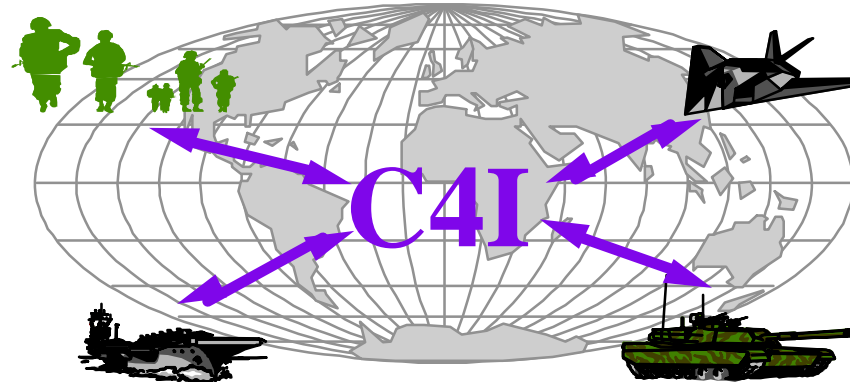

Bosnia C2 Augmentation System

Information Dominance for Joint Endeavor

Four Services + Allies -- One Team, One Mission

C4I--the tie that binds

Commanders need a fused, real-time, true picture of the Area of Operations and the ability to order, respond, and coordinate vertically and horizontally to the degree necessary to prosecute the mission.
